

Table 16. Copy Source Overlay File display fields (continued)

Text 'description'	Specify a short description of the source overlay file in this prompt or leave the default if you want to copy the file with the same file description as the from file description. This description is saved with the source overlay file and displayed when the source overlay files are listed to help you identify the source overlay files.
--------------------	---

Press the Enter key after you specify the choices.

## 4=Delete Source Overlay File

To delete a source overlay file, do the following on the Work with Source Overlay Files display.

1. Type a 4 in the *Opt* column beside the name of the source overlay file you want to delete.
2. Press Enter.

The Confirm Delete of Source Overlay Files display appears:

**Confirm Delete of Source Overlay Files**

Press Enter to confirm your choices for 4=Delete.  
Press F12 to return to change your choices.

Source Overlay	File	Library	Text	Changed
4	OUFIL2	OULIB	Source overlay file 2	12/12/90
4	OUFIL3	OULIB	Source overlay file 3	12/12/90
4	OUFIL4	OULIB	Source overlay file 4	12/12/90

F11=Display names only    F12=Cancel
**Bottom**

Using the Confirm Delete of Source Overlay Files display, you can confirm that you want to delete the files you chose by selecting option 4 (Delete) on the Work with Source Overlay Files display.

**Note:** You can delete only the source overlay files for which you have the authority to do so. If you do not have \*OBJOPR and \*OBJEXIST authority for a source overlay file, that source overlay file is not deleted.

You should use the displayed list of names to verify that you want to delete all of the source overlay files shown. If all of them **are** to be deleted, press Enter to delete them. If any of them should **not** be deleted, press F12 (Cancel). If you press F12, you return to the Work with Source Overlay Files display with all selections still shown, and you can remove 4 from the column beside the source overlay file you do not want to delete.
