

**Exit Overlay Utility**

Type choices, press Enter.

Option . . . . . 1

  
  

Return to source overlay list . . Y

1=Save and exit  
2=Exit without saving  
3=Resume Overlay Utility session

  
  

Y=Yes, N=No

F12=Cancel

Using the Exit Overlay Utility display, you can specify to:

- Save the source overlay
- Exit creating or changing the source overlay without saving it.
- Resume the overlay utility session.

Field Name	Description
Option	<p>Specifies how you want to handle the source overlay that you are working with:</p> <p><b>1</b>      <i>Save and exit</i> allows you to save the source overlay that you have created. The Save Source Overlay display appears to save the source overlay.</p> <p><b>2</b>      <i>Exit without saving</i> allows you to exit from the task without saving the source overlay. Everything you have entered while you were designing the overlay is discarded.</p> <p><b>3</b>      <i>Resume overlay utility session</i> allows you to return to the Create Source Overlay display.</p>
Return to source overlay list	<p>Specifies one of the following selections:</p> <p><b>Y (Yes)</b> Returns to the Work with Source Overlays display.</p> <p><b>N (No)</b> Bypasses the Work with Source Overlays display and returns to the display from which you started the overlay utility.</p>

Step 4. Type 1 in the *Option* prompt, and press the Enter key. The Save Source Overlay display appears.
